

## PRESS RELEASE

Basel, Switzerland, April 1<sup>st</sup>, 2019.

### **Clinerion partners with Sigmasoft to expand patient treatment options in Greece and Cyprus.**

**Clinerion and Sigmasoft aim to bring access to international clinical studies for patients, physicians and healthcare institutions in Greece and Cyprus and to bring new treatments quicker to patients by accelerating trial recruitment.**

Sigmasoft is a medical software company based in Greece and Cyprus with six years' experience in eHealth. The company provides innovative software systems and consulting services for healthcare providers, institutions and pharmaceutical companies.

Sigmasoft's MedExpress is the leading e-prescribing and electronic medical record (EHR)-based medical software in Greece, fully interoperable with the Greek National ePrescribing System. MedExpress is currently used by more than 3,500 physicians in medical practices, hospitals, clinics, primary care centers and healthcare institutions across Greece. MedExpress has been awarded in the Healthcare Business Awards 2016 as the best medical software in Greece.

As part of the partnership, Sigmasoft will support Clinerion in integrating healthcare institutions and physicians in Clinerion's international Patient Network Explorer platform, expanding clinical research opportunities for patients in Greece and Cyprus. Patient Network Explorer makes it easy for trial sponsors to bring their trials to patients, accelerating the path to market for innovative treatments by speeding up clinical trial recruitment.

"We are very pleased to partner with Clinerion and assist in more effective clinical research in Greece and Cyprus," says Georgios Stefanidis, CEO & Founder of Sigmasoft. "We are looking forward in integrating more healthcare institutions across Greece and Cyprus in the Patient Network Explorer platform, as well as providing real world evidence data, based on our existing customer base of physicians nationwide."

"Sigmasoft is the advanced technology partner we need to improve patient lives in Greece and Cyprus," says Ian Rentsch, CEO of Clinerion. "Patients are our first priority. We are committed to the early detection, prevention and finding cures for all chronic and acute diseases using our homegrown patented digital technology."

As the launch event for the partnership, Clinerion and Sigmasoft will jointly attend the HealthIT Conference in Athens on April 16<sup>th</sup>-17<sup>th</sup>. For further details, or to make an appointment, please address the contact persons below.

## About Clinerion

Clinerion accelerates clinical research and medical access to treatments for patients. We use proprietary technologies for analysis of patient data from our global network of partner hospitals. Clinerion's Patient Network Explorer radically improves the efficiency and effectiveness of clinical trial recruitment by offering data-driven protocol optimization, site feasibility evaluation and real-time patient search and identification to match patients to treatments. Our technology solution provides real-world evidence analytics for medical access. Clinerion facilitates the participation of partner hospitals in leading-edge, industry-sponsored trials and time savings in patient recruitment. We create innovative and disruptive fit-for-purpose solutions which enable pharmaceutical companies to shorten patient recruitment and save costs by streamlining operations and leveraging strategic intelligence. Clinerion's proprietary Big Data analytics technologies leverage real-time data from electronic health records which comply with international patient privacy and data security regulations. Clinerion is a global data technology service company headquartered in Switzerland.
